### Carl D. Perkins Vocational and Technical Education Act Annual Performance Report Instrument - Postsecondary July 1, 2000 – June 30, 2001

Purpose: This Annual Performance Report is an instrument designed to collect information on those vocational and technical education programs that received funding under the Carl D. Perkins Grant for the current program year, July 1, 2000 through June 30, 2001.

General Instructions: Please read and complete all sections. Your answers should reflect required and permissible activities that occurred in those vocational and technical education subject areas funded during the current program year ending June 30, 2001. If you need additional space, please attach a separate sheet. Narrative answers should be concise and specific. This document can be accessed directly from our website, www.state.ct.us/sde/. This report is due on or before July 12, 2001. Mail this report to: Roberta Pawloski, Chief, Bureau of Career and Adult Education, 25 Industrial Park Road, Middletown, CT 06457.

#### Part A – Required Activities

#### 1. Program Areas

Please check program areas that were offered in 2000-2001. Indicate with an asterisk (\*) those program areas in which there were concentrators at the conclusion of the year.

Program Areas (Asterisk* areas with Concentrators	Check Programs Offered
Agriculture & Nat. Resources	
Business and Admin. Services	
Health Services	
Human Services	
Hospitality & Tourism	
Info. Tech. Telecom. Services	
Technology Services	
Wholesale, Retail Sales &	
Services	
Legal & Protective Services	

	students participating in vocational and technical education programs by strengthening the academic, vocational and technical components of such programs. This can be accomplished by integrating academics with vocational and technical education programs through the creation of coherent sequences of courses that increase relevancy and improve learning in both the core academic as well as vocational and technical subjects. Please check any of the following improvements utilized.
	Career plans are used to sequence courses leading to both academic and occupational competencies.  Academic skills are infused into vocational and technical education curricula.  Basic academic skills are incorporated into vocational and technical education classes.  Learning labs and/or tutoring in basic skills is provided for vocational and technical education students who need remediation.  State, consortia or locally-developed applied academic curricula are utilized.  Employability or generic workforce skills are incorporated into vocational and technical education courses.
	Other methods utilized to infuse academic integration into vocational and technical subject areas include:  • • • • • • • • • •
3.	Perkins grant recipients are expected to provide students with strong experience in and understanding of all aspects of the industry they are preparing to enter. This emphasis on all aspects of an industry includes: planning, management, finances, technical and production skills, underlying principles of technology, labor and community issues, health, safety, and environmental issues. Please check the activities utilized to evaluate progress in this area.
	Self-evaluation Post graduation survey Student/employer communication Program advisory committees Occupational Outlook Handbook Dictionary of Occupational Titles
	Follow-up studies of program completers Student involvement on committees Work-based learning Job shadowing

2. Perkins grant recipients are required to improve the academic and technical skills of

	Other methods utilized to address all aspects of the industry include:  • • • • • • • •
4.	Perkins grant recipients are to provide comprehensive professional development for vocational and technical, academic, guidance, and administrative personnel. Below are suggestions for professional development activities. Please check those that have been utilized in your district.
	<ul> <li>National, regional and/or state conferences for vocational and technical education</li> <li>In-service training focusing on the integration of academic and vocational courses</li> <li>In-service training focusing on career development</li> <li>Internships/externships for vocational and technical education teachers and/or counselors</li> <li>Team teaching between academic and vocational and technical education teachers</li> <li>Local provision of professional development</li> <li>Academic and vocational and technical education teachers coordinate course content and/or jointly develop new curricula</li> </ul>
	Other professional development activities utilized include:  • • • • • •
5.	Members of special populations include students who are identified as: <ul> <li>individuals with disabilities</li> <li>individuals who are educationally and economically disadvantaged</li> <li>individuals with limited English proficiency (LEP)</li> </ul>

• students enrolled in subject area courses leading to careers that are

historically non-traditional for their gender.

• single parents

• displaced homemakers, and

How have you identified the barriers special populations students face in striving to achieve success in vocational and technical education programs? Following is a list of suggested methods for meeting this requirement. Please check any of the methods that you utilize. Review of class schedules for conflicts Comparison of basic skills completion rates \_\_\_\_ Additional assessments of academic skills \_\_\_\_ Additional assessments of pre-vocational skills \_\_ Student surveys for physical, financial, and language barriers Review training of vocational academic staff in accommodation techniques Advisory committees formed of students, parents, teachers, counselors, and employers \_\_ Enrollment procedure reviews Physical accessibility surveys Enrollment trend reviews Other methods utilized to identify barriers include: 6. Following is a list of methods for addressing barriers that stand in the way of success for students identified as special populations. Identify strategies that you have used to address this required activity. \_\_\_\_ counseling provide an interagency coordinator development/training recruitment professional \_\_\_\_ assistive technology financial aid/planning \_\_\_\_ improve accessibility provide awareness of available resources to staff community agency referral Regional Education

Service Centers services

Other methods utilized to address barriers include:
